Who We Are

Mercury Technology Consultants (MTC) is a full-service TS/SCI FCL IT consulting firm with over 20 years of consulting experience. MTC focuses on providing insightful guidance and leadership to military and enterprise organizations. Our mission is to provide cutting-edge network technology solutions to protect the security of systems and people. In addition, we strive to exceed customer expectations with our professional and results-driven staff.

Digital Transformations

MTC focuses on DevSecOps and software development innovation through Continuous integration (CI) and Continuous delivery (CD). (CI/CD) pipelines will provide value to your organization so that your organization can gain leverage and success with the forward movement of change.

Our approach focuses on the technical architecture of security strategy, evaluating functional and assurance requirements, designing and incorporating security into each project, artificial intelligence, continuity, and encryption, along with other command and cyber control strategies.

Our team will map your processes and identify ways to improve them.

- **Data Center to Cloud Transformation**
- **Process Transformation**
- **Big Data**
- **Digital Capability Creation**
